

T-Splitters & Joiner

The ConnectMedia range of Adapters and Couplers provide added flexibility when your current installed infrastructure needs temporary or permanent modification.

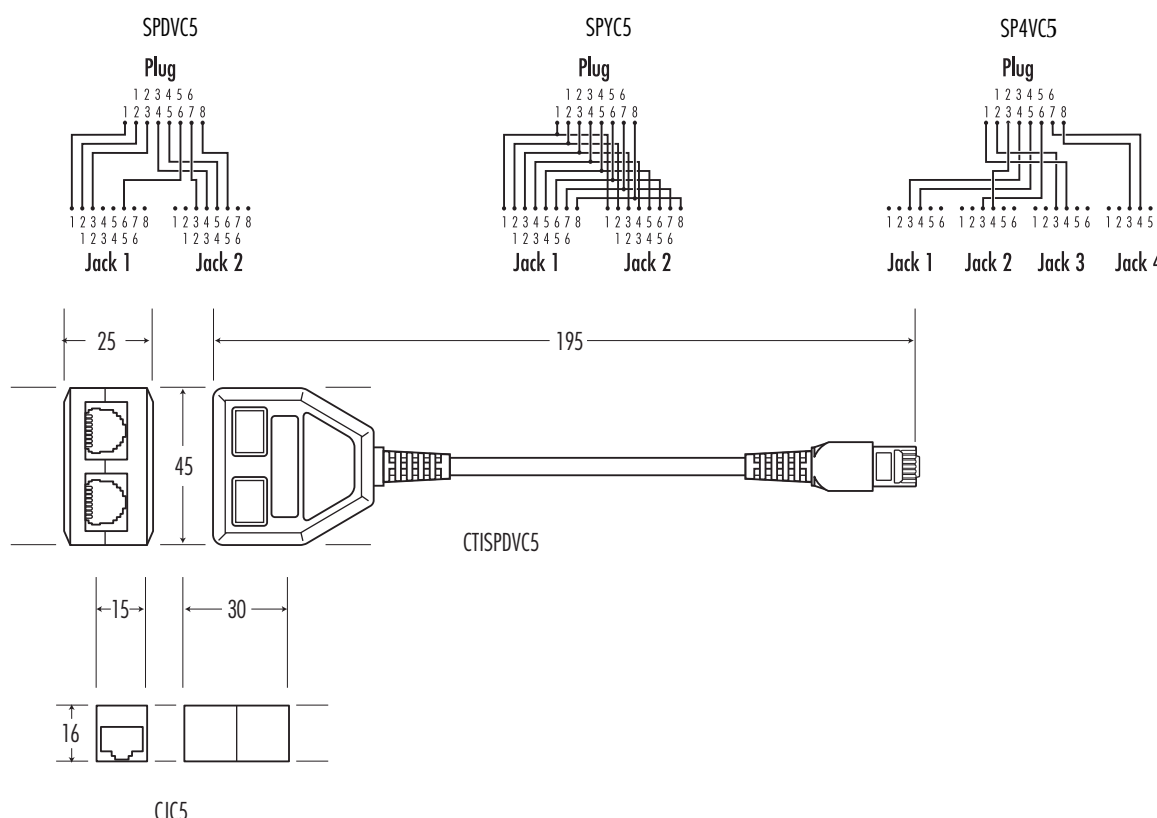

The ConnectMedia T-Splitter gives the end user the ability to break out a standard 4pr Jack and cable into multiple applications. All T-Splitters come standard with voice and data icons as well as a wiring diagram.

The ConnectMedia modular through adapters are configured pin to pin and also allow temporary modification for extension to a cabling systems.

- ➔ Converts one 4PR jack into multiple jacks
- ➔ Includes voice and data icons
- ➔ Multiple configuration
- ➔ 4 way version available
- ➔ Straight through adaptor version
